Program 1: Beginner A

FUREY 26.2
MARATHON TRAINING

2 days of running per week
2 days of non impact cardio mixed w/ strength training
A day of brisk walking (optional)
With an option to change Monday XT to easy run or ST
Half cross train / half run starting week 6

Ideal for beginners with a primary goal of completion, minimal time to train & possible injury issues that may make the 2 run week more favorable.

Beginner B	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY LONG RUN	SUNDAY	Total Milage
Week 1 - 12/1	XT/ST		4 Steady Pace			4 - 5	RD	9
Week 2 - 12/8	XT/ST		5 SP			5 - 6	RD	11
Week 3 - 12/15	XT/ST		6 SP	XT/ST		7 - 8	RD	13

Week 19 - 4/6	XT/ST	ST / BW	6 - HI			8	RD	15
Week 20 - 4/13	XT/ST	ST / BW	3 easy	2 easy		2	Off or 1 mile	5
April 20 2026	**RACE DAY**							

Important Note: These plans are guidelines. If needed, you can switch up the days, change things around, and blend different plans together to meet your individual training goals. Please see information below for coaches notes and the training abbreviation key.

Coaches Notes

Starting Weekly Mileage: 9 miles
Highest Mileage Week: 29 miles
Longest Run: 20 *(can be modified if needed)*
Progression: Very gradual
Injury Risk: very low

Key:

LR: Long runs. A key piece of the marathon training plan. These are generally run at an easy pace with some segments run at race pace.

RR: Riverside Run. This out-and-back run begins at the Riverside T stop and finishes at Joint Ventures.

HI: Hill Intervals. A critical workout for Boston! The number on the schedule reflects the total mileage of the workout, including a 1.5 - 2.0 mile easy warmup jog at the start and shakeout jog at the end.

SP: Steady pace runs. Not hard but not too easy. You should be able to talk during these runs.

ST: Strength Train. Any form of strength training that will help improve running and decrease injury risk.

XT: Cardio Cross Train. 30 - 60 minutes of any version of non-impact cardio - bike, rower, stepper, swim, elliptical

BW: Brisk Walk 30 - 60 minutes. An excellent alternative to increase fitness with minimal impact and to prepare you for adding walking breaks into longer runs as they increase later in the season.

RD: Recovery Day. Either a total day off, walk, yoga or very light (non-impact) cardio.

Optional De-load week: the de-load week is a week that has a 30 - 50% reduction in weekly volume. Usually after a few week period of consistent training, this allows the body to optimally recover. Sometimes, life, health, time, etc. forces you to have an “unplanned” de-load week during the training cycle. This is why these de-load weeks are listed as optional.
